

AMB

ALLEN MOONEY BARNES

### **Organization Overview**

AMB offers clients a better way of managing and preserving their wealth and solving their corporate challenges based on long-term client relationships and a focus on quality of advice rather than quantity of services offered. Our investment banking group combines a wide array of services and capabilities with the passion, responsiveness and focus of a boutique firm. Our approach with each client is tailored and research driven. We advise a select group of corporations, management teams, boards of directors and former CEOs on mergers and acquisitions, capital formation transactions and performance improvement

### **Department**

Investment Banking, focusing on Healthcare Services

### **AMB is looking to hire an Investment Banking Analyst to add to our Healthcare Investment Banking team in Charleston, SC.**

As an employee of AMB's investment banking group, you will be joining a growing team with opportunity for advancement and a fantastic platform to learn about healthcare and deal making. We pride ourselves on our culture that awards meritocracy with open collaboration. Everyone on our team participates and is judged by the merit of their work, not status or tenure. As a valued team member, you'll enjoy a competitive compensation package, a full suite of benefits, three weeks of vacation, flexible spending accounts, and a business casual dress code. We look forward to hearing from talented and motivated candidates.

### **Responsibilities**

- Support team in researching and creating marketing pitch materials, building financial models to value potential clients, and researching companies as determined by team needs.
- Assist in active equity and merger & acquisition transaction execution including, but not limited to: financial analysis, model creation, drafting memoranda, due diligence, attending client meetings and drafting sessions, creating data rooms, and any other support services required to assist in closing an engagement.
- Active travel to client meetings with expectation of heavy participation.
- Participate in any other requests from team members or clients. Job Requirements Bachelor's degree required; business, mathematics or computer science degrees preferred from a top-tier university
- No experience required but strong understanding of job function is; 6 months – 2 years of experience preferred
- Proven track record in university studies required
- Series 7, 79 and 63 licenses required within 90 days of hire
- Detail oriented with strong analytical abilities

- Excellent mathematical, writing, verbal and computer skills
- Ability to adapt to new tasks with little notice
- Ability to manage expectations of team members while working on projects simultaneously
- Strong understanding of accounting and finance
- Committed to satisfying internal and external customers
